

CARE FOR CANCER PATIENTS

The 2008 Fall Brain Highways Champions formed a team to help Stage IV cancer patients pay for the basic necessities of life. From organizing neighborhood talent shows to forming their own businesses, the team raised \$11,000 for Cancer Angels of San Diego. The team also created 100 butterflies, reflecting what each champion loved about his or her life, to give to cancer patients. A group of the Brain Highways Champions represented the team at the Cancer Angels' annual fundraising walk and party.
